WYOMING BRIGADE ARRIVES IN TOWN

Horsemen, Horses and Racing Followers Show Up on Fair Grounds This Morning.

There can be little question now that the coming summer meeting of the Utah the coming summer meeting of the Utah Jockst club, which opens at the fair grands on May 22, is going to be the grandest session of sport even an ultra racing enthusiast may imagine, Outof town breeders, owners and devotees of racing are dropping in from every of facing the west almost daily. Already the downtown hotels are beginning to part of the downlown hotels are beginning to the downlown hotels are beginning to feel the stress of caring for the incomers and the real influx of visitors has not as yet begun. Talking of the situation today President John Condron said: the said was to the said that the said points in the city at the prosent outside points in the city at the prosent while there are over 300 horses that the fair grounds. There will be 2.30 visitors to hand and 500 horses in two weeks' time. Yes, the coming meeting is now an assured success and i may say our city is going to see a very lively and prosperous summer." The gest of affairs at Ogden only presages the big success the Sait Lake meeting will be.

ANOTHER CONTINGENT.

ANOTHER CONTINGENT.

The "Wyoming Brigade" of horsemen, horses and racing followers showed up this morning when over two score of horses and a dozen or so sportsmen with their families all bent on spending the symmer here and enjoying some racing, seme in over the D. & R. G. Among the symmer large and enjoying some racing, seme in over the D. & R. G. Among the visitors are S. B. Harrison, the miltionalire zinc miner and stock-ralser of wyoming, Col. Beaton White of Omaha, Neb. and J. G. Hillpot of Denver owner of the Colorado stable. The Irwin Bros' stable of horses is the forefront of he horses. The string numbers 11 head, all ready to race and win. Among them is Frank Lubbuck who will be remembered as having won the Utah Deby at the state fair last autumn. This horse is a wonder over the fair grounds course and will be heard from berond doubt before the racing progresses very far. Sam F. is another celebrity. He is a remarkable post horse, always breaking with lightning speed. Ha can run a quarter of a mile in 21 seconds any day. The Irwin Bros', horse include besides these two stars, St. Joe. Lux Rio, Valencia, Koelgn, Losise, Grass Cutter, Corrigan, Mabel Fonntain and Haven Run. FINN'S ACTIVITIES.

General Manager W. W. Finn has now a force of 122 men engaged at the fair grounds remodeling the plant and getting everything in ship-shape for the big opening on Saturday, May 22. Each day sees a big change in the appearance of things, though the stage of completion is yet far removed. The course has been re-fenced all around and the inside fencing reduced time inches. Visitors to the state fair in seasons past have complained about not being able to clearly see the contesting horses on the back stretch because of the high railing. Mr. Finn at considerable expense has now lowered it to the standard height. When thrown open to the public a fortnight hence the fair grounds will be a splendid racing plant. Already several rhousand dollars have been expended uponit and a tidy force of workmen given employment.

AFFILIATED SUNDAY SCHOOLS BASEBALL GAMES TODAY

PRESIDENT AS A BASEBALL FAN;

PITCHER JOHNNY LUSH OF THE CARDINALS, WHOSE CURVES ARE PROVING EFFECTIVE SALT LAKE TURNS

Pitcher Johnny Lush of the Cardinals, Whose Curves Are Proving Effective.

Judging from his present work in the box, Pitcher Johnny Lush of the St. Louis Nationals is out to make many of the crack southpaws in the big league look to their laurels. Since the opening of the season Lush has twirled first-class ball, and with Bresnahan behind the bat to help him out, there is no doubt that the clever southpaw will make a good record. Lush is not only a crack pitcher, but is a capable fielder and a hard and timely hitter. In the recent game against Chicago, which he won, he made three hits. Lush made his professional debut in 1903, with the Williamsport (Pa.) club as a fielder. He attracted atention, and that fall the Philadelphia club signed him. He started in in 1904 as a southpaw pitcher, but in a short time was used in the outfield to get the benefit of his excellent batting. In mid-season he was placed on first base, and in a short time he mastered the position so well that he finished the season at the bag. The following season, however, he was used as a pitcher, as Bransfield was secured from the Pittsburg club. He remained with the Phillies until 1907, when he was traded to St. Louis for Pitcher "Buster" Brown.. He has since been a useful member of the Cardinals' pitching staff. In 1906, Lush pitched a no hit game against Brooklyn.

tion companies have destroyed about \$5,-000 worth of trout in Cache county this spring through carelessness. In a letter received yesterday by Mr. Chambers from P. A. Thatcher, president of the Cache County Fish and Game Protective association, it is stated that the irrigation companies had been taking water from streams without putting in the proper screens. When the water was turned off, thousands of small trout were left in the canals where they died.

Under the law, the companies are required to put suitable screens in the ditches or canals and if this is not done they are expected to give the fish and game commissioner five days' notice before turning off the water so that the deputies can gather up the fish and place then in the river again.

the day before, probably feel like kicking themselves today.

Salt Lake got even with Helena, taking the game, 2 to 1. Each team made a couple of errors; Helena got seven hits and Salt Lake six. That's good enough ball for anyone. Hammond's players started out to win and the Thomas-Battery could not stop them. Annis was in the box for Salt Lake and did great work in pitching, fielding and batting. While he got only one hit it was good for a couple of bags and brought in the run that sent the local rooters will with joy. His dips, spurs and angles had the Senators guessing. In the first four inning he fanned five and got three more in the next. It was in the last half of the ninth that Corbin got a walk and reached second on Flick's sacrifice. Annis walked to the plate and the fans pleaded with him to tear the eover off the ball. He cracked one out to left field and Corbin romped home. Two double baggers in the third by Sturgeon and Head got the first run.

In the cighth Wessler sent a long fly first run. In the eighth Wessler sent a long fly to left and got a three-bagger and scored on a single by Morse. The score:

ANOTHER SQUABBLE COMING UP IN BASEBALL WORLD

Chicago, May 5.—That another baseball war is scented by close followers of the politics of the national pastime in the anouncement of the national commission that the revised national agreement as framed up to suit the American association and the Eastern league has been abrogated through the fallure of these two leagues to sign the instrument in the time limit set, as asserted by the Daily News today. leagues to sign the instrument in the time limit set, as asserted by the Daily News today.

This paper says: "That the American association is still actively but secretly trying to arrange for an invasion of Chicago, thus bringing about another baseball war, is the opinion of many leaders of the two major leagues."

The Daily News recites the action of last winter which gave these two leagues a special rating with the privileges of drafting from class A and other minor leagues, adds:

"Now comes the announcement from Cincinnati that these two organizations have failed in their part of the agreement and the whole thing is off, leaving all minor leagues in the same position that they occupied last year—the American association and the Eastern league fall back to A classification."

Salt Lakers who purchased cars months ago are clamoring for them and the salesman has run out of excuses trying to explain that the railroads are way behind in handling the shipments and that the factories are working over time. There is scarcely a dealer in the city who does not expect a shipment of cars some time this week.

One of the best sales made so far this week was made yesterday by the Studebaker company when that concern sold to Dr. H. S. Allen a handsome seven passenger 49 horsepower Studebaker. The car is one of the most elaborate and at the same time simple in mechanism, classy as to durability and speed.

The car was tried out yesterday for the first time and worked perfectly. It runs as smoothly as clockwork and has every comfort and convenience possible and is electric lighted throughout. The car, which is a D model, cost \$4,500. Still the local automobile trade con-

WATER COOLING TROUBLES.

The federal government has added one to the list of troubles which, according to the advocates of air cooling, are always an accompaniment of the cooling of an automobile engine by means of water. As water will freeze while air will not, freezing troubles are found only with water-cooled engines, which fact causes the use with the latter of as close an approach to what is known as an "anti-freezing solution" as can be obtained. With an air-cooled motor car, such as the Franklin, the engine itself is "anti-freezing," and so there is no bursting of water jackets and leaking of radiators.

Now the commissioner of internal bursting of water jackets and leaking of radiators.

Now the commissioner of internal revenue at Washington has started to give his attention to water cooling, and he has created what, if his suspicions have any foundation, will be a new cause of trouble with that system. He has given a decision that automobile dealers preparing a stock of a "nonfreezing mixture" for their customers must pay a special government tax if the product contains 30 per cent or more of alcohol. Wood alcohol is the kind commonly used, but the commissioner is apprehensive that under the guise of a "non-freezing solution" some new kind of infoxicating drink will be distributed in prohibition states either in bulk or by passing automobilists.

The cost of maintaing and repairing the 1,500 miles of good roads in New York state during the next year is estimated at \$1,500,600.

William Jennings Bryan, lecturer, is busy these days, almost as busy, his associates say, as if he were president. He makes quick jumps about the country, and when railway schedules are not such as to suit his convenience he makes use of the automobile.

A hen which has become an automobile enthusiast is one of the possessions of C. M. Wing of Greenville, S. C. She haunts the garage and many time has been taken on trips about 'he city in her owner's motor car. No plate in the tonneau is hers when she travels; she is a sightseer and she takes a perch upon the fold of the wind shield.

For nearly a year E. S. Henderson of Salt Lake City has been operating a Franklin automobile with Syracuse air in the tires. It was sent from the Franklin factory in Syracuse last July. "There has been only five pounds of air added to the back tires since it was shipped," says Mr. Henderson, "so I am operating yet on Syracuse air. I have not had a puncture and no tire repairs whatever, It has cost me about 2 cents per mile to operate."
